

LIST OF PHD THESES IN FOREST GENETICS AND RELATED FIELDS – PART 6 (1998–2000)

The Publisher and the Editorial Board have decided to publish annually in the last issue of the current volume a list of PhD theses defended in the current year. In this issue the sixth part of the list of theses defended in 1998–2000 is published. Announcing the information on defended theses missing in this list and of further theses and sending their copies (if available) to the Editor-in-Chief would be very much appreciated.

- AHTIKOSKI, A., 2000: The profitability of Scots pine (*Pinus sylvestris* L.) and silver birch (*Betula pendula* Roth.) Next generation seed orchards in Finland. University of Helsinki, Department of Economics. Publication 7, 148 pp + 29 appendices. ISBN (PDF) 951-91-2327-2, ISSN 1236-6226. (Supervisor M. Keltikangas).
- AVROV, F. D. 1998: [Ecological and genetic variability of population stability and growth of larch plantations in Siberia]. Doctor of Sciences thesis, Krasnojarsk, Siberian State technological University, 355 pp. [in Russian].
- BILA, A. D. 2000: Fertility variation and its effects on gene diversity in forest tree populations. *Acta Universitatis Agrculturae Sueciae. Silvestria* 166, 31+75 pp. ISSN 1401-6230, ISBN 91-576-6050-6. (Supervisors D. Lindgren & T. Mullin).
- BOROVICS, A. 2000: [Crossing experiments and taxonomical studies in indigenous oak species]. Faculty of Forestry, University of West Hungary, Sopron, 124 pp. (Supervisor Cs. Mátyás). [in Hungarian].
- CHEN XIAOYANG, 1994: [Studies on reproduction biology and genetic variations of clones in seed orchards of Chinese fir *Cunninghamia lanceolata*]. Beijing Forestry University, Beijing, China, (supervisor Shen Xihuan), 137 pp. [in Chinese].
- CUNNINGHAM, D., 2000: Autecology of *Cassia brewsteri* with respect to galactomannan production. Plant Sciences Group, School of Biological and Environmental Sciences, Central Queensland University, Rockhampton, Australia, (supervisors K. B. Walsh and E. R. Anderson), 294 pp.
- DOUNAVI, A., 2000: Familienstrukturen in Buchenbeständen (*Fagus sylvatica*). [Family structures in beech stands (*Fagus sylvatica*).] <http://webdoc.sub.gwdg.de/diss/2000/dounavi>. (PhD thesis, Department of Forest Genetics and Tree Breeding, Faculty of Forestry, University of Göttingen, Germany) [German with English summary].
- DUAN ANAN, 1996: [Study on selection and propagation of clones with cold and drought resistance from double hybrid of *Populus tomentosa* Carr.]. Beijing Forestry University, Beijing, China, (supervisor Zhu Zhiti), 67 pp. [in Chinese].
- FRANJIĆ, J. 1996: [Multivariate analysis of Sava and Drava populations of pedunculate oak (*Quercus robur* L., Fagaceae) in Croatia]. Faculty of Nature Sciences and Mathematics, University of Zagreb, Croatia, 185 pp. [in Croatian].
- FURMAN, B.J. 1997: Phylogenetically informative markers as diagnostic tools to identify species, hybrids and introgression in Central American and Mexican pines. Department of Genetics, North Carolina State University, Raleigh, N.C. 233 pp. (supervisors R. Sederoff & W. Dvorak).
- GALEEV, E. I. 2000: [Birch forest of the South Ural (as the example of *Betula pendula*)]. Baskiaria State Agricultural University, Ekaterinburg, 128 pp. [in Russian].
- GEHLE, TH., 1999: Reproduktionssystem und genetische Differenzierung von Stieleichenpopulationen (*Quercus robur* L.) in Nordrhein-Westfalen. Göttingen Research Notes in Forest Genetics, 24, 144 pages. (PhD thesis, Department of Forest Genetics and Tree Breeding, Faculty of Forestry, University of Göttingen, Germany) [German with English summary].
- HANNERZ, M., 1999: Early testing of growth rhythm in *Picea abies* for prediction of forest damage and growth in the field. *Acta Universitatis Agrculturae Sueciae. Silvestria* 85, 45+54 pp. ISSN 1401-6203, ISBN 91-576-5619-3. (Supervisors I. Ekberg).
- HERTZBERG, M., 2001: A functional genomics approach to wood development. *Acta Universitatis Agrculturae Sueciae. Silvestria* 173, 34+69 pp. ISSN 1401-6230, ISBN 91-576-6057-3. (Supervisors O. Olsson & T. Mullin).
- HAO GUIXIA, 1998: [Study on genetic transformation conditions of *Populus tomentosa* and identification of the transformation plants with insecticidal gene]. Beijing Forestry University, Beijing, China, (supervisor Zhu Zhiti), 62 pp. [in Chinese].
- ILINOV, A. A. 1998: [Intraspecific variation and population structure of the Finnish spruce *Picea xfennica* (Regel) Kom. in Karelia. St. Peterburg Forest Research Institute, St. Peterburg, 156 pp. [in Russian].
- INSHAKOV, E. M., 1998: [Intraspecific variation and introduction of elms from Siberia and the far East]. Krasnojarsk, Siberian State technological University, 181 pp. [in Russian].
- JANßEN, A., 2000: Untersuchungen zur genetischen Variation der Buche in Hessen. Der Einfluss von Ernteverfahren auf die genetische Struktur von Saatgut eines Buchenbestandes. Hessische Landesanstalt für Forsteinrichtung, Waldforschung und Waldökologie, Forschungsberichte, 27, 1-142. (PhD thesis, Department of Forest Genetics and Tree Breeding, Faculty of Forestry, University of Göttingen, Germany) [German with English summary].
- JI KONGSHU, 1996: [Research on physiological genetics of vegetative propagation and mineral nutrition of Masson pine]. Nanjing Forestry University, Nanjing, China, (supervisors Wang Mingxiu, Wang Zhangrong & Chen Tianhua), 91 pp. [in Chinese].
- KANG XIANGYANG, 1996: [Study on cytogenetics and triploid breeding of *Populus tomentosa* Carr.]. Beijing Forestry University, Beijing, China, (supervisor Zhu Zhiti), 220 pp. [in Chinese].
- KARLSSON, B., 2000: Clone testing and genotype x environ-

- ment interaction in *Picea abies*. *Acta Universitatis Agriculturae Sueciae, Silvestria*, **162**, 47+76 pp ISSN 1401-6230; ISBN 91-576-5896-X. (PhD thesis elaborated at the Swedish Agricultural University, Department of Forest Genetics, supervisor G. Eriksson).

ZHANG ZHIYI, 1994: [A Study on the chromosome doubling and triploid breeding of Chinese white poplars]. Beijing Forestry University, Beijing, China, (supervisor Zhu Zhiti), 168 pp. [in Chinese].

ZU GUONGCHEN, 1997: [Study on genetic engineering of poplar]. Nanjing Forestry University, Nanjing, China, (supervisors Wang Mingxiu & Huang Minren), 49 pp. [in Chinese].

NOTE

We apologize for imperfections in citations of the Ph.D. theses in which some information is missing. Except the bibliographic line, the information about the institution, where the Ph.D. thesis was elaborated, is given in normal brackets. The title of the respective Ph.D. thesis is given in original language (English, German, and French) or in English translation (in rectangular brackets). The original language of the Ph.D. thesis is given in rectangular brackets at the end of the record.

ACKNOWLEDGMENTS

Except the authors themselves, thanks are due to Dr. Elizabeth Gillet (Göttingen), Prof. Dag Lindgren (Umeå), Dr. Pirkko Velling (Vantaa), Prof. Shen Xihuan (Beijing), Dr. Janusz Sabor (Kraków), Prof. Dr. Ronald Sederoff (Raleigh), Igor Yakovlev (Ioshkar Ola) for providing the information on relevant Ph.D. theses.
